

Provision[®]

USED CAR INVENTORY MANAGEMENT

TRADER[™]
GO FWD

ALL YOU NEED TO WIN IN TODAY'S USED CAR MARKET

Provisioning

The Provisioning tool brings the vehicles with the highest potential in your live local market directly to your lot, so you can generate more profit. It's a real-time view of what to buy, what to pay and exactly where to find it.

Pricing

Price every used vehicle on your lot to maximize your VDPs, your turns and your profits. Armed with all the numbers you need, you can effectively compete for the top spot on customers' online shopping lists and drive more traffic to your showroom.

Appraising

The Appraising tool provides multiple exit strategies for every vehicle you appraise – so you know the retail, wholesale and subprime potential before you get into the car. And it tells you what identically equipped vehicles are selling for in your live local retail market, so you can determine your precise margin potential.

Subprime Booking

Subprime Booking lets you easily find back-of-book inventory at any auction and determine the subprime potential of any appraisal against multiple lenders' criteria at once. Plus, it helps you match subprime customers to the right cars right away in your sales process.

Premium Support and Service

Provision® is the only product in the market that provides the additional support of dedicated Performance Managers. All Provision® subscribers have access to an experienced automotive expert who helps you increase your inventory turns and gross profit.

What do today's top performing dealers have in common?

They make decisions based on live market data. They align every effort with an overall strategy. And they work in real time, from desktop to mobile.

They do it all with one solution — Provision[®], powered by vAuto.

Data

Provision[®] is the only inventory management solution on the market that leverages exclusive autoTRADER.ca live market data to provide you with accurate and localized insights.

Insight

No other solution helps you leverage your data better. Provision's report card and letter grades convert complex market data into easy-to-understand conclusions that drive fast decision-making.

Access

Start any appraisal with a simple VIN scan from your smartphone or tablet. Once you purchase a vehicle, you can price it competitively in near real-time from that same device.

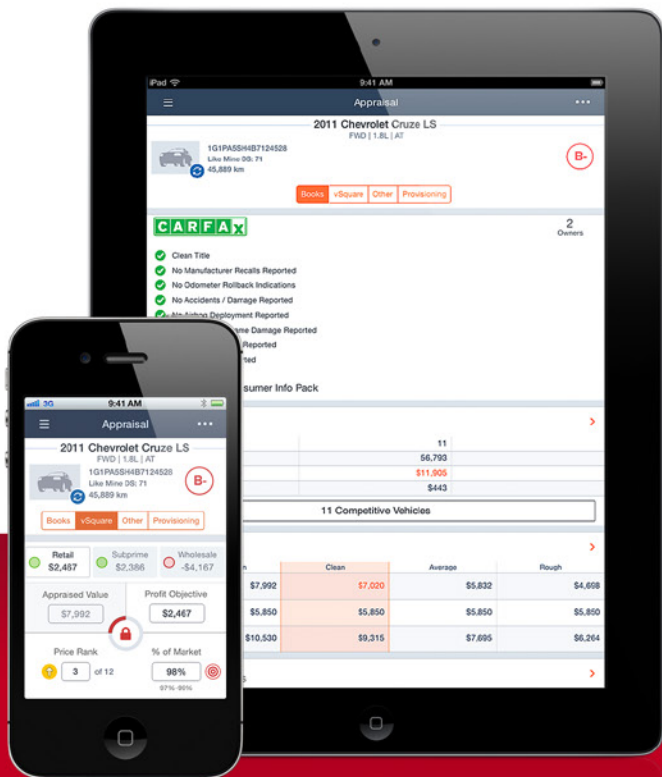

Merchandising Feature

All the data you need to monitor and access your used car listings, on autoTRADER.ca and various third-party sites - all in one place. The Merchandising feature of the Provision Suite lets you create more accurate, consistent vehicle listings across multiple online channels and enhance your used car merchandising workflow.

Mobile

Provision brings together all the used vehicle information you need - wherever you need it - thanks to the industry's leading fully mobile, fully optimized inventory management system. Available as an app on a smartphone or tablet, the Provision Suite allows you to drive decisions directly from your mobile device. Whether you're in the office, on the lot, at the auction or on the go, the ability to access information and make inventory decisions is always at your fingertips.
